Content Management System Training Guide
December 2025

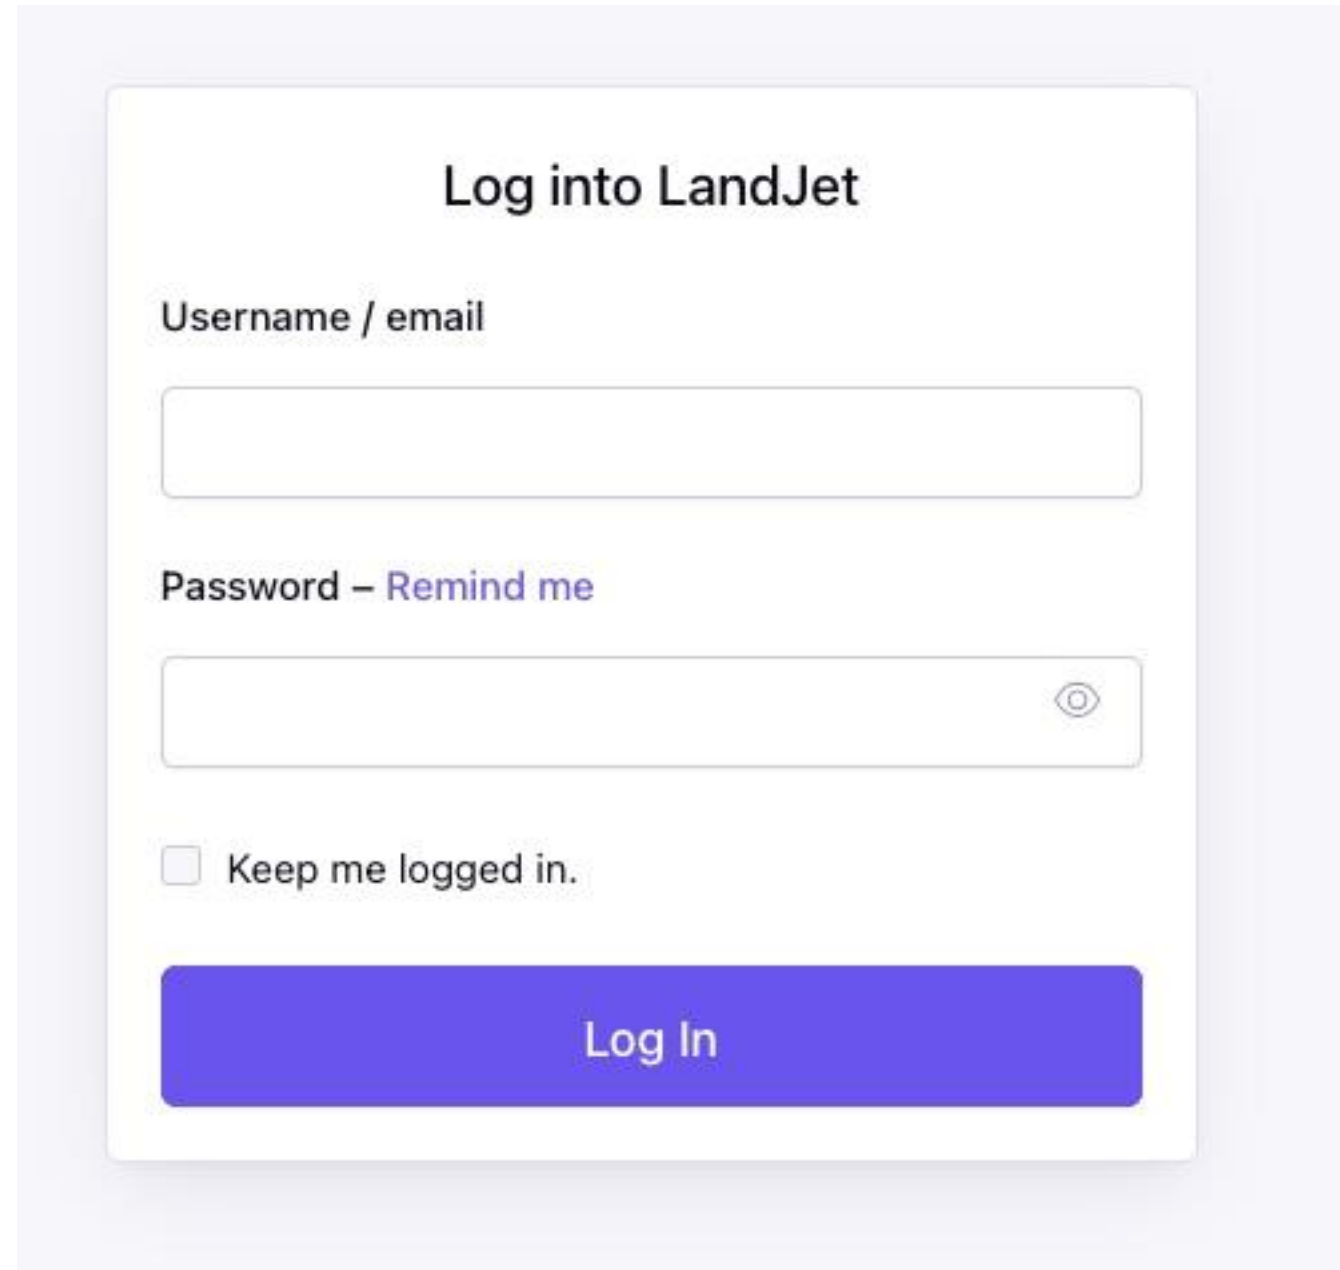

Logging Into Website CMS

URL: <https://landjet.com/admin.php>

Username: landjet

Password: w!2dZX7%26+v

Should you need additional CMS profiles created, please contact TAG.

A screenshot of a web login interface for 'LandJet'. The form is white with rounded corners and a subtle shadow, set against a light gray background. At the top, the title 'Log into LandJet' is centered in a bold, black font. Below the title, there are two input fields. The first is labeled 'Username / email' in a gray font and is an empty rectangular box. The second is labeled 'Password – Remind me' in a gray font, with 'Remind me' in a blue, clickable link style. This field is also an empty rectangular box with a small eye icon on the right side to toggle password visibility. Below the password field, there is a checkbox labeled 'Keep me logged in.' in a gray font. At the bottom of the form is a large, solid blue button with the text 'Log In' in white, centered on it.

Log into LandJet

Password – Remind me

☐ Keep me logged in.

Log In

Structure Page

To view the website structure or edit a page navigate to Structure and click on the page you would like to edit.

The screenshot shows the 'Structure Page' interface. At the top, there are three buttons: 'Collapse Pages', 'Expand Pages', and 'Add Page'. Below these buttons is a tab bar with 'All Pages' and 'Assets'. The 'All Pages' tab is selected and highlighted with a yellow box. A yellow arrow points from a text box to the 'Expand Pages' button. The text box contains the following text:

From the structure page you can access any page within your website. To expand to see child pages select the small arrow or "expand pages" and select the page you want to edit.

The main content area displays a tree structure of pages:

- Homepage
- Services
 - Travel Options - Mobile Office Fleet
 - Travel Discounts
 - Reserve Your Mobile Office
- About LandJet
 - Franchise With Us
 - FAQs

Editing the Homepage

▼ Title *

Homepage

This is your page title. For all existing pages on the site, the page title has already been generated. Only when adding child pages will a new title be required.

▼ URL title *

No spaces. Underscores and

homepage

The URL Title will automatically populate when creating a new page, based on the page title. This provides a unique URL to the page that is created.

▼ Hero Section {hero_section}

Message {hero_section:message}	Photo {hero_section:photo}	Video {hero_section:video}
LandJet: The Business Sma	LJ_on_Tarmack_edit_sky_1920_1034 	Welcome 

These sections allow you to modify the content that is within your hero section. To change out this content:

1. **Message** – This is the headline/title of the hero frame.
2. **Photo** – This is the background photo for frame. (Please note: if the video is in use, this is ignored)
3. **Video** – The file for the video. Supports MP4 formatted videos up to 20 megabytes.

Be sure to select "Save" to save your changes!

Add Child Page

Delete

Add or Edit

Child pages can be created so that you are able to display new information throughout the life cycle of your website.

To create a new child page:

1. In the website structure, choose "Add Page".
2. If you want the page underneath another page, hover over the page you wish to have it as the parent and click "Add Child Page".
3. If you want to add a **Press Coverage** article to the Press Coverage page, click on "Add" next to the page. If you wish to edit an article, click on "edit" next to the page and find/click on the article you wish to edit.

Job posts on the **Pilot Recruitment** page work the same fashion as the Press Coverage.

Be sure to select "Save" or "Save & Close" to save your changes!

Save Save & Close

Uploading a Photo/File

You are able to upload files directly to the CMS from within a page.

The screenshot shows the CMS interface with several numbered callouts:

- 1**: A callout box highlights the 'Edit' (pencil) and 'Remove' (trashcan) icons in the top right corner of a photo preview.
- 2**: A callout box highlights the 'Drop File Here to Upload' and 'Upload To Photos' text in a dashed box.
- 3**: A callout box highlights the 'Choose Existing' button.
- 4**: A callout box highlights the 'Upload New' button.

Below the buttons, there are filters for Type, Category, Date, and Added By, along with a search bar and a 'Show (25)' dropdown. A table lists existing files:

	Title	File Name	File Type
☐	 Mark_LJ_Headshot.jpg	Mark_LJ_Headshot.jpg	Image
☐	 LJ_on_Tarmack_edit_sky_1920_1034-NODodgeLogo.jpg	LJ_on_Tarmack_edit_sky_1920_1034-NODodgeLogo.jpg	Image
☐	 Percy_Kapadia_Headshot.JPG	Percy_Kapadia_Headshot.JPG	Image

There are several steps to uploading a new image or file.

1. Choose either the "Edit" (Pencil) or "Remove" (Trashcan) icon to change out the photo. Using the remove button does **not** delete the image from the CMS.
2. You can either drag & drop an image from your computer to this section to upload a new file.
3. Or you can click "Choose existing" to select a photo that is already in the CMS.
4. Or you can "Upload New" and choose a file from your computer to upload a new image.

Uploading a File.

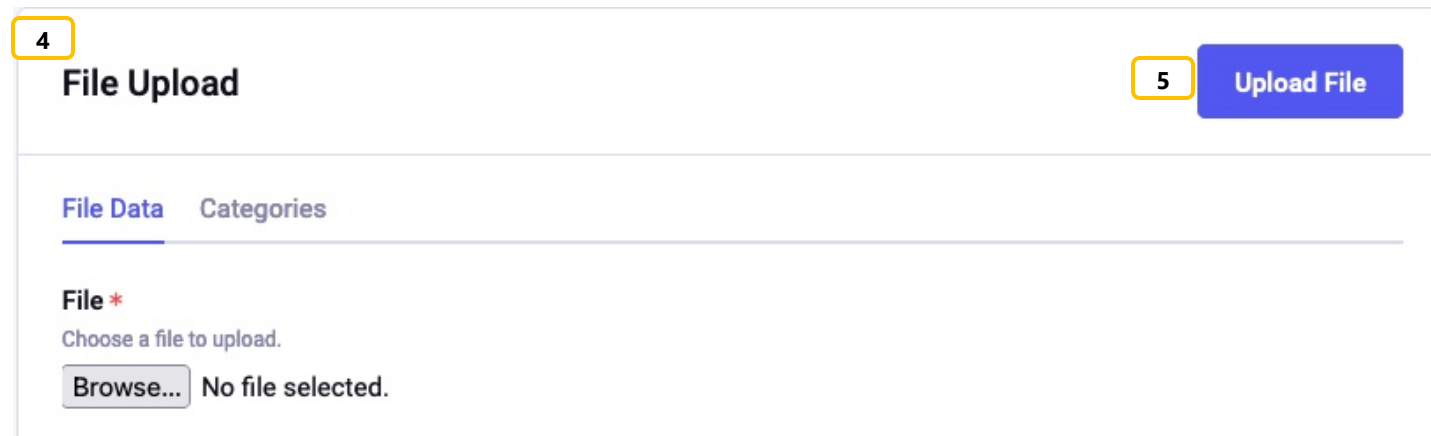

Below are the steps to an alternative method of uploading a file or photo.

The alternative way to upload a photo or file is by following these steps:

1. Choose "Files" in the upper left corner of the CMS.
2. On the upper right, choose "Upload File".
3. You will then choose whether you are uploading an image (Photos), homepage slider video (Video), or a downloadable file (Files).
4. Browse your computer until you find the file you wish to upload.
5. Choose "Upload File", in green on the right side.

The file is now uploaded to the CMS.

Be sure to select "Save" or "Save & Close" to save your changes!

Managing Franchising Portals

The portals are handled via the Assets section of the site.

The Franchising portals functions as a multi-page experience. The user has a navigation sidebar to navigate the pages.

To create a new Franchising portal:

1. Click Add next to "Portal" - This is done through the "Assets"
2. Load the basic copy that will show up after the person logs in from here
3. Select additional pages that this portal will contain (you can create additional pages through the Portal Subpage' asset from Structure).
4. Select which login(s) will access this portal. Please note, only one portal can be used per login.

All Pages **Assets** ← Choose "Assets" from the structure page.

Links	 Add or Edit
Photo Gallery	 Add or Edit
Portal	 Add or Edit
Portal Account	 Add or Edit
Portal Subpage	 Add or Edit
Services	 Add or Edit

Once you select the number the entries will populate. You can select "Export CSV" to export your entries OR select the entry time to view the single entry. All entries will stay saved in your CMS. Do not remove entries as it cannot be replaced.

Creating, Editing, & Viewing Forms

To create a form, view entries or edit a form click on Forms on the top menu bar. From here you can do several things.

Forms						
ID	Form	Handle	Submissions	Blocked Spam	Manage	☐
1	Contact Form	contact_form	30	388	  	☐

To edit a form: Select its name or the blue pencil in line with the form name under “Manage”

To view entries: Select the *number* under “Submissions”

To create a new form: Select “New Form”

Creating Forms

To create a form, click on the field you need in the form tools box and it will show up in the box to the right.

(The on page form builder is a condensed version. IF you click the Forms button at the top of the CMS and edit the form in the actual module, you will have a full toolset to work with.)

The screenshot shows the 'Composer Form' interface. On the left, there are two panels: 'SPECIAL FIELDS' and 'FIELDS'. The 'SPECIAL FIELDS' panel includes 'Submit', 'HTML', 'Confirm', and 'Password' buttons, along with an 'Add New Field' button. The 'FIELDS' panel lists 'Email', 'State', 'City', 'First Name', 'Last Name', 'Phone', and 'Zip Code'. A yellow box highlights the 'Confirm' and 'Password' buttons in the 'SPECIAL FIELDS' panel and the 'Email' through 'Zip Code' fields in the 'FIELDS' panel. In the center, a large text box contains eight steps for creating a form. A red box highlights a note at the bottom of this central box. On the right, the 'FORM SETTINGS' panel includes fields for 'Name' (set to 'Composer Form'), 'Handle' (set to 'composer_form'), and 'Submission Title' (with a placeholder). It also has a checkbox for 'Store Submitted Data' which is checked, and a section for 'Formatting Template'.

☒ **Store Submitted Data**

Formatting Template
The formatting template to assign to this form

Steps:

- Step 1: Edit the Name from "Composer Form" to your desired form name. Then also change it under "Handle"
- Step 2: Scroll on the left hand side to return URL and paste in your desired thank you page URL.
- Step 3: Select Notify
- Step 4: Under Notify select "admin template" and then place the emails you want the form to go to within it.
- Step 5: Select the fields from the left that you want the form to ask.
- Step 6: Select the actual field to edit its content and title or make it required.
- Step 7: Add a submit button by selecting submit above "add new field".
- Step 8: Press Save or Save and Close to Finish.

Note: ** TAG recommends looking at other forms within your CMS to see how they are built. TAG can also build your forms should you need, simply provide us the title, what you want to ask, and who it needs to go to once submitted.

**Should you need a new form created, please contact TAG and we will be happy to help set up and test forms as needed. Forms are integral to how you communicate with your users and as your partners we want to ensure they are set up for success.

Changing Your Password

From the CMS Homepage, click on your username in the right hand corner and select “My Profile” from the dropdown. Select Username & Password. Enter and Confirm your new password. Finish by Authenticating and Saving.

Once you've clicked on your username you can click on these to change your username and password, email settings and anything else you feel might need changed. Please **notify TAG** if you make changes on this page.

Should you update your password you are not required to tell TAG your new password. Should you lose your password, let TAG know and we can reset it for you.

Website Photos Uploading and Sizes

- How to Upload
 - Select “Files” from the top of your page.
 - On the right hand side you can select “Upload File”
 - Select “Photos” for photos (jpgs or pngs) or “Files” for PDF or other files.
 - Then select “Choose File” to select a file from your computer
 - Select “Upload File”
 - In the File Manager you will see all of the files on the website
 - You can filter these or search for a file by using the keyword

Additional Assistance

If you get into your CMS and realize that you don't know how to do something, a photo isn't fitting correctly or is showing up incorrectly, or you've tested the new form you made and it isn't going through please feel free to contact TAG. We are here to help you and make sure you can get the most out of your website. If you would like additional explanation on a certain topic added to your CMS training guide, please contact your TAG team member.
